

Annual Spring Meeting

Saturday, May 28, 2022

Camp Tekakwitha Parking Lot 9:00am

Board Members Present: Lloyd Knope, Chairman; Mary Claire Lueck, Treasurer; John Abendroth, Secretary; Dick Koeller; Damian Drewek

Meeting called to order at 9:00am by Lloyd

Fall Minutes approved by Ann Reed, second by John Wenzler Passed

Directory Update: John reported in process

Lloyd reported that Weed treatment of the lake is scheduled for June 2. There will be watering restrictions for 1 day but 2 are suggested. Lloyd and Dick will be monitoring the process. 34 acres in 3 different areas will be treated and will hopefully have an impact on the entire lake. Nothing was done last year for weeds. A new chemical will be used with no further restrictions and the chemical will not affect native plants.

The construction on Loon Lake Drive is scheduled for next year. It was suggested that if you desire to bury power lines along with the construction members contact WE Energies.

It was noted that the muskrats are creating piles around the lake. Muskrats are known to have 4 or 5 litters per year. Both the muskrats and beaver are being trapped and taken away.

And the geese are still out there!

Motion to adjourn at 9:08. Todd Nielson, first, Sager, Second Carried
Respectfully Submitted

P John Abendroth; Secretary
